APKANI SANDEEP KUMAR

DATA ANALYST

apkanisandeep00@outlook.com | +44 78458 25863 | Leeds, United Kingdom | LinkedIn | GitHub | Portfolio

SUMMARY

Data Analyst with **2+ years of experience in retail and operational analytics**, plus 5+ years producing large-scale Management Information (MI) reports for the Government of Telangana. Skilled in SQL, Python, Excel (Power Query, PivotTables), Power BI and Tableau, with a track record of cleaning complex datasets, automating recurring reports (saving approximately 25 hours per week) and presenting insights to non-technical stakeholders. **Full right to work in the UK; no sponsorship required.**

SKILLS

Languages and Databases: SQL (MySQL, BigQuery), Python (Pandas, NumPy)

Data Visualisation and Reporting: Power BI, Tableau, Microsoft Excel (Power Query, PivotTables)

Analytics and Statistics: Exploratory Data Analysis (EDA), Data Cleaning and Validation, Hypothesis Testing, A/B Testing, Cohort Analysis, Customer Segmentation, Feature Engineering,ETL Pipelines, Statistical Analysis

Machine Learning and Libraries: Scikit-learn, Matplotlib, Seaborn

Tools and Platforms: AWS(ECR,ECS), Git, GitHub, Jupyter Notebook, Streamlit, Flask

EXPERIENCE

Data Analyst - GITS TECHNOCRATS SOLUTIONS, Bangalore, India March 2024 – May 2026

- Analysed retail and operational datasets using SQL, Python, and Excel, delivering insights that supported pricing, inventory, and operational decision-making.
- Wrote and optimised SQL queries (joins, filters, aggregations) across multiple data sources, **reducing manual reporting effort by 12% and improving reporting accuracy**
- Automated recurring Excel and Python-based reporting workflows, reducing manual **processing time by approximately 25 hours per week and improving turnaround time by 8%.**
- Gathered reporting requirements from business and technical stakeholders and translated complex datasets into clear insights for non-technical audiences.

Data Analyst Intern - GITS TECHNOCRATS SOLUTIONS, Bangalore, India Sep 2023 – March 2024

- Supported SQL analysis of retail and operational datasets to identify sales, customer and operational trends.
- Cleaned and validated data using Python and Excel, **reducing reporting inconsistencies by 7%.**
- Built Excel reports, Pivot Tables and visual summaries for performance reporting, and assisted in developing Power BI dashboards to track key business metrics.

Agriculture Extension Officer (Data & MIS Reporting) - Government of Telangana Apr 2018 – Aug 2023

- Collected and validated real-time agricultural survey data across a 12,000-acre region using government digital systems, providing datasets that informed state-level planning, procurement and policy decisions.
- Reduced data-quality and reconciliation issues by **approximately 4% through structured validation, verification, and data-cleaning processes**.
- Produced analytical reports and dashboards for crop-damage assessments, compensation and insurance claims, and presented findings to senior non-technical stakeholders.

PROJECTS

UK-Retail-SQL-business-analysis GitHub

Technologies: SQL, Time Series Analysis

- Analysed 500,000+ transaction records from a UK online retailer to examine customer behaviour, product performance and revenue drivers.
- Performed cohort analysis, revenue segmentation, and time-series trend analysis to identify peak trading periods and top-performing product categories.

Walmart Black Friday Sales Analysis GitHub

Technologies: Python, NumPy, Pandas, Matplotlib, Seaborn

- Analysed 100M+ sales transactions to segment customers by demographic and purchasing behaviour, developing a targeted marketing framework to identify the highest-value revenue opportunities.

Certifications

- SQL — Scaler Academy
- Data Analysis and Visualisation — Scaler Academy: Tableau and Excel, Python Libraries, Probability and Statistics

- Product Analytics; Machine Learning: Supervised Algorithms — Scaler Academy
- Programming Foundations with Python; Introduction to Databases — NxtWave

EDUCATION

Data Science & Machine Learning —Scaler Academy, Bangalore, India Jun 2023 – Nov 2024

Bachelor of Arts (BA) — Kakatiya University, India 2019 – 2022
